INTRODUCTION

New beginnings. Plot twists. Happily ever afters. Life is made up of stories. Here at Amtico, we've been helping people build theirs, from the floor up.

We've been bringing the best in luxury vinyl tiles (LVT) to Britain, and then the world at large, for six decades. Our British Manufacturing Expertise means exceptional craftsmanship and quality. You're supported all the way by our committed and passionate teams of experts to select the perfect floor for your home.

WHAT IS LVT?

Luxury vinyl tiles

British
Manufacturing
Expertise

Put simply, luxury vinyl tile (or LVT) is a popular flooring solution that offers the appearance of real wood or stone, or introduces a striking abstract look.

Because it's made with heat compression of several high quality materials, it's extremely hard-wearing and practical, making it perfect for the life that takes place in your home. It can also be laid in different ways, allowing you to bring your unique vision to life.

We're proud of our British expertise, stemming from our original factory in Coventry. Here, our craft for manufacturing allows us to carefully create LVT in all kinds of planks, tiles and looks for every type of space.

OUR PRODUCTS

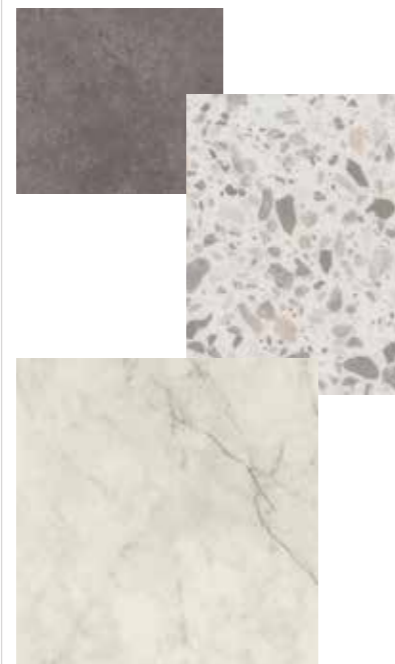

Planks

In keeping with a more traditional look, our planks give a genuine appearance of an authentic wooden floor and are available in different sizes.

Tiles

Perfect for our stones and available in a number of sizes, our LVT tiles look real, with none of the underfoot coldness that the natural materials usually carry.

Stripping

Available in many different sizes, grout-style stripping can enhance and define your flooring. Choose a similar shade for a subtle look, or pick a contrasting colour for a bold finish.

Borders, corners and motifs are also available. See what's possible on page 175.

HOW IT'S MADE

Layers of craft and heritage

Unlike natural woods, ceramics or stones, our LVT flooring consists of many layers that provide a versatility and durability unrivalled by other engineered floors. And because it's so flexible in design, it's perfect for bringing your vision to life.

1
Quantum Guard Elite coating
Provides superior durability and resistance against scuffs and marks.

2 & 3
Multi-layered high density 1mm wear layers*
To withstand intense use.

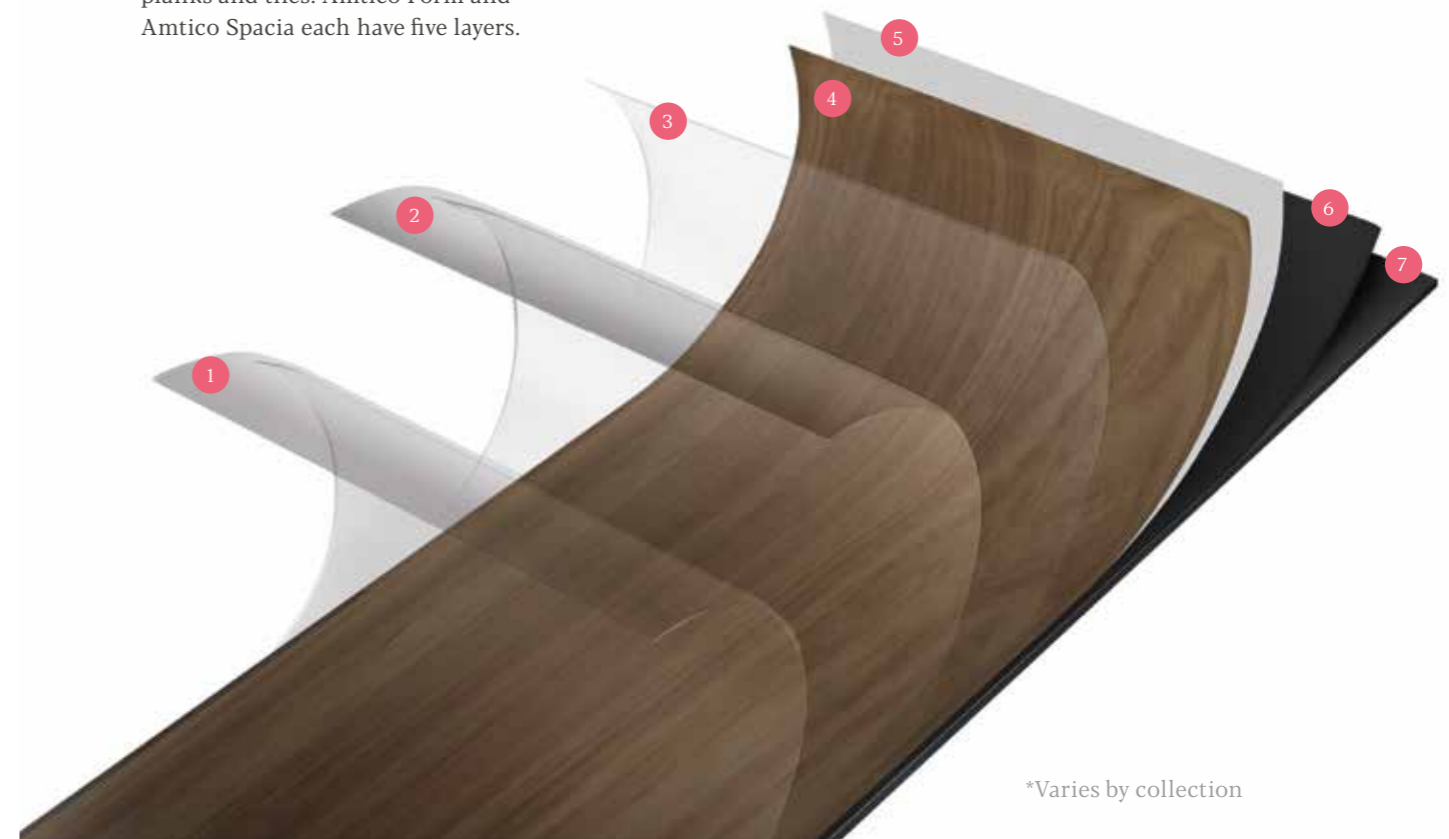

4 & 5
Aesthetic layers
Our carefully crafted choice of print films and pigmented layers that produce beautiful Wood, Stone and Colour & Abstract designs.

6 & 7
Backing layers
The final layers provide a foundation for the aesthetic layers, to guarantee high performance.

WHAT MAKES US

Durable by design

This illustration demonstrates the seven layers that make up Amtico Signature planks and tiles. Amtico Form and Amtico Spacia each have five layers.

COLLECTIONS OVERVIEW

More collections, unlimited choice

Our collections are very distinct in their features, designs and purpose. While they differ in embossing, warranties and features, all of them include the following:

LONG-LASTING

Layers which will last

All our LVT floors contain at least five durable layers, to provide the ultimate wear over time.

SIMPLE TO CLEAN AND MAINTAIN

Easier to care for

Unlike natural flooring, which can have very precise maintenance, all of our collections are easy to care for.

ANTIMICROBIAL

Bacteria-reducing

Our collections are designed with antimicrobial properties that reduce bacteria by over 99.9%*, ensuring a more hygienic home.

UNDERFLOOR HEATING-COMPATIBLE

Suitable for underfloor heating

All of our collections are designed to work with underfloor heating systems, for an even warmer welcome.

*Independently verified against E. coli and MRSA, to ISO 22196, showing a reduction of >99.9% after 24hrs against an untreated control. Also tested against SARS-CoV-2, to ISO 21702, showing an 85.5% reduction against an untreated control and a reduction of >99.9% against the initial inoculation after 24hrs.
